COME JOIN US: INNOVATION THURSDAY

Online via Live Stream

11 March 2021, 2 - 3.30pm

Meet our Acceleration Partners - Investment Management Association of Singapore (IMAS), BlackRock, Nikko Asset Management and Schroders! Hear directly from them about their challenges, what they are looking for, and what opportunities they offer to collaborate with potential solvers.

2.00pm – 2.10pm

Introduction to OIP

2.10pm – 2.30pm

IMAS x Nikko Asset Management – Streamline Risk Assessment Process to Allow for Outsourced Services

Problem Statement: How might we better streamline the process to conduct risk assessment of outsourced vendors, to provide a robust platform for internal management of outsourced services while ensuring compliance to outsourcing regulation?

What Are We Looking For: A prototype solution that can digitalise the risk assessment of outsourcing functions across business units and jurisdictions, which should include the following features: Automated workflow management, robust multi-stage review, data visualisation dashboard, resource library and automated information gathering.

2.30pm – 2.50pm

IMAS x Schroders – Automated Data Parsing, Extraction and Analysis Tool for Asset Management

Problem Statement: How might we create a smart document parser to streamline and enhance the process of information extraction and analysis for the financial analysis?

What Are We Looking For: A prototype seamless and use-friendly data parsing and extraction solution specific for the asset management industry that is able to perform most of the following functions including intelligent data extraction, NLP-based financial topic analysis, intelligent data contextualisation, centralise document repository, feedback loop and smart searching capabilities.

2.50pm – 3.10pm

IMAS – Automated Form Filing Workflow and Data Management for Asset Management

Problem Statement: How can we automate the form-filling process for asset management firms in a more accurate and efficient manner?

What Are We Looking For: A prototype solution that can (i) automatically extract data fields from the PDF form into a more structured format (e.g. MS Excel) and (ii) using the extracted data, to automatically populate data fields directly onto the OPERA system in subsequent/yearly updates.

3.10pm – 3.30pm

IMAS x BlackRock – Digital ESG Reporting Tool for Asset Management Firms

Problem Statement: How can we have consistent and up-to-date measurements of ESG standards and requirements to better equip asset managers to - visibly and with impact - incorporate ESG considerations into investment programmes and portfolios?

What Are We Looking For: A working prototype solution that can support asset managers to effectively support asset managers to effectively manage sustainable investment considerations, which should include one or more of the following features: Automated data gathering, easy search and retrieval library, digital reporting, digital collaboration and sentiment analysis.
