

The SaaS Digital Accelerator For Lending

ONBOARD, ORIGINATE, MANAGE, AND VISUALISE

Finnate Suite

About the Finnate Suite

Hyper-configurable, super-scalable, and ultra-secure, Finnate is a proprietary zero-code platform that helps you automate business activities, focus on core operations, and deliver agile financial services. Finnate's AI-powered product suite and lego-like composable architecture leverages the latest technology to digitalise, modernise and optimise the lending lifecycle. It enables Lenders to make more informed credit decisions and foster profitable growth.

Digital Onboarding

Benefit from Customisable Workflows, Faster Onboarding, and Error-free Operations

Finnate Digital Onboarding makes it easy for you to attract and retain users. Seamless, secure, and lightning-fast, it automates repetitive tasks and eliminates in-person hassles, manual processes, and endless form-filling. No more back-and-forth communication or missed opportunities. Let us handle onboarding new investors in minutes so you can focus on what you do best – building meaningful connections and growing your investments.

Deliver Frictionless Onboarding Journeys for Every Persona

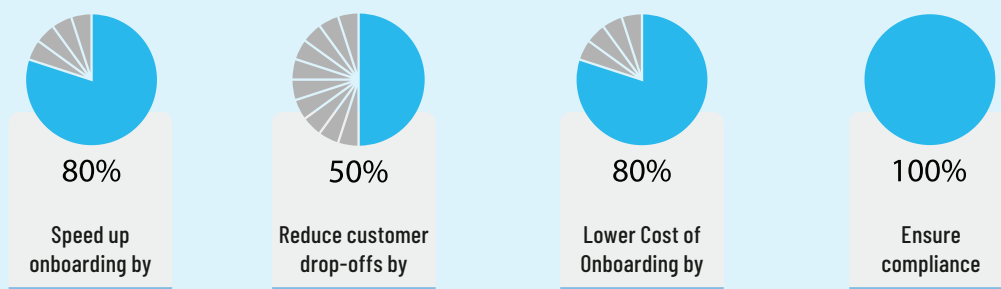

40+ Integrations with your Favourite Tools, Apps & Partners

Our configurable workflows enable you to craft digital experiences that match your specific needs. Navigate across all onboarding channels, ensuring consistent and frictionless journeys for all your stakeholders.

With Finnate Digital Onboarding You Can

LOS - Originate

Enabling Tomorrow's Lenders to be Fast, Flexible, and Future-ready.

Turbocharge your loan origination process with fully automated, secure, and accurate underwriting. Finnate Originate enables you to boost portfolio performance by approving the right loans through advanced due diligence and intelligent business rules.

Our configurable workflows and out-of-the-box integrations enable rapid product launches and instantaneous loan document generation.
